Victor Reinz® Universal Gasket Material

Sealing Confidence with Victor Reinz® Products

Is your old gasket damaged, with no replacement available? No problem—simply make a new one yourself. Select the most suitable material for your sealing needs from four different types. The roll format is specially designed for the requirements of bulk users. Victor Reinz offers universal gasket material on an aramid fiber base, with or without steel supports, and on a cellulose and cork base, in roll format.

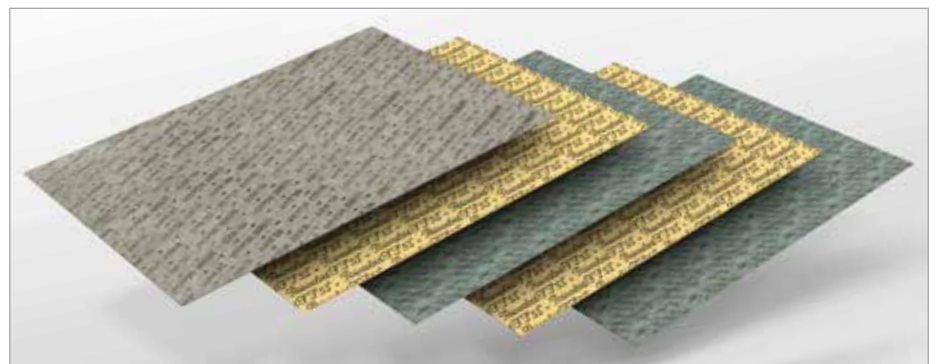

When it comes to sealing products, Victor Reinz is the brand you can trust.

Universal Gasket Material Applications:
