Products for the Energy Market

Steep grades. Rugged terrain. Harsh climates. Dana understands. That's why the companies that drive the energy industry count on Dana's Spicer® and GWB® brands to get results. Spicer axle, driveshaft, and transmission products offer original equipment durability and reliability, and GWB is recognized the world over for industrial-strength driveshafts.

Spicer® Transmissions and Service Parts

The transmissions and torque converters we build for a wide variety of off-highway applications are capable of handling performance needs ranging from 55 to 1,000 horsepower, including:

- Hydrostatic transmissions used in wheeled excavators and front-end loaders
- Powershift transmissions for simplified handling and reduced noise

Learn more at www.SpicerParts.com/transmission.

Spicer® Transfer Cases

Get all-wheel drive when you need traction, or disconnect for extra power. Conventionally geared in a 1:1 ratio with optional front-wheel disconnect, Spicer transfer cases are adaptable to meet the following applications:

- Midship mount
- Stationary
- Direct mount

Learn more at www.SpicerParts.com/transfer-cases.

Spicer® and GWB® Driveshaft and Service Parts

Covering a torque range from 400 Nm to 15,000,000 Nm, Spicer and GWB driveshafts are trusted across a full range of automotive, commercial vehicle, off-highway, and industrial applications. Spicer driveshafts and steering shafts are engineered to minimize noise, vibration, and harshness, and Spicer universal joints reduce wear and extend life. For the driveshafts and u-joints that meet your vehicle's needs, visit www.SpicerParts.com.

Spicer® Lubricants

For energy market applications, there are a number of Spicer lubricants engineered to meet your needs.

Spicer® Ultra-Premium Synthetic Grease ensures peak performance for Spicer driveline components, providing excellent load-carrying ability, wear resistance, and protection against corrosion.

Spicer® FE 75W-90 Fuel-Efficient Synthetic Gear Lubricant protects gears and bearings, offering better performance while improving fuel economy and decreasing CO₂ emissions.

Spicer® SAE 50 Synthetic Manual Transmission Lubricant is specially formulated for extended drain and severe service in heavy duty manual transmissions that require a non-EP gear or transmission lubricant.

Spicer® 80W-140 Synthetic Gear Lubricant

is specially formulated for a range of vocational trucks, offering all-weather, year-round performance, and gear protection in low- and high-speed conditions.

Learn more at www.SpicerParts.com/lubricants.

Spicer® Axles, Transaxles, and Service Parts

Get easy, low-cost service and maintenance, plus rugged, reliable performance, with Spicer automotive, commercial vehicle, and off-highway axles and service parts, including:

- Single and planetary drive axles
- Non-drive steer axles
- Transaxles

In addition, Dana offers a full line of on-highway axles, service parts, and gearing that outperforms the competition by as much as 280%*, including:

- Steer axles and components
 - King pins, tie rod ends, drag links, knuckles, cross tube assemblies, and more
- Drive axles and components
 - Carriers, ring and pinion kits, bearing and overall kits, side gears, and more

Talk to your Spicer or GWB parts representative today, or visit www.SpicerParts.com/energy to learn more.
