

SPICER®

Genuine Spicer® Medium- and Heavy-Duty Carriers

There Is No Substitute for Spicer® Products.

Spicer parts are manufactured to the same high standards as OE parts—because they are OE parts. That means when an original equipment part is replaced with a genuine Spicer product, you get the same performance and reliability you have come to expect.

Medium- and Heavy-Duty Carriers. OE Quality. Spicer® Service.

Don't risk your vehicle's performance on knock-off axle carriers. Dana offers the genuine Spicer medium- and heavy-duty axle carrier assemblies you need, along with the peace of mind that comes from knowing they contain only brand new genuine Spicer parts.

Knock-off parts cannot match Spicer. Only Spicer gearing is:

- Manufactured with a special grade of steel
- Heat-treated and shot-peened for optimal hardness and performance
- Machined and heat-treated to great precision in matched sets

The perfect fit between mating gears extends the life of gearing, while providing smooth, quiet operation. Installing Spicer gearing reduces the risk of premature failure, and thus reduces the risk of costly collateral damage that typically occurs with gearing failure. Trust Spicer gearing to save you money and downtime!

Demand the Best ... Demand Genuine Spicer!

Flexibility to meet your needs.

Only Dana gives you two purchasing options for new genuine Spicer carriers:

- The core option is our most competitively priced offering (part numbers with an EX suffix).
- The core-free option requires no core deposit or core return (part numbers with a CF suffix).

Our broad product line offers the right carrier to meet your application needs. Our customer service department, including dedicated carrier core management experts, stands ready to provide the service you expect.

When your vehicle is down, our network of logistic centers ships carriers quickly, so you can get back on the road.

Model Nomenclature

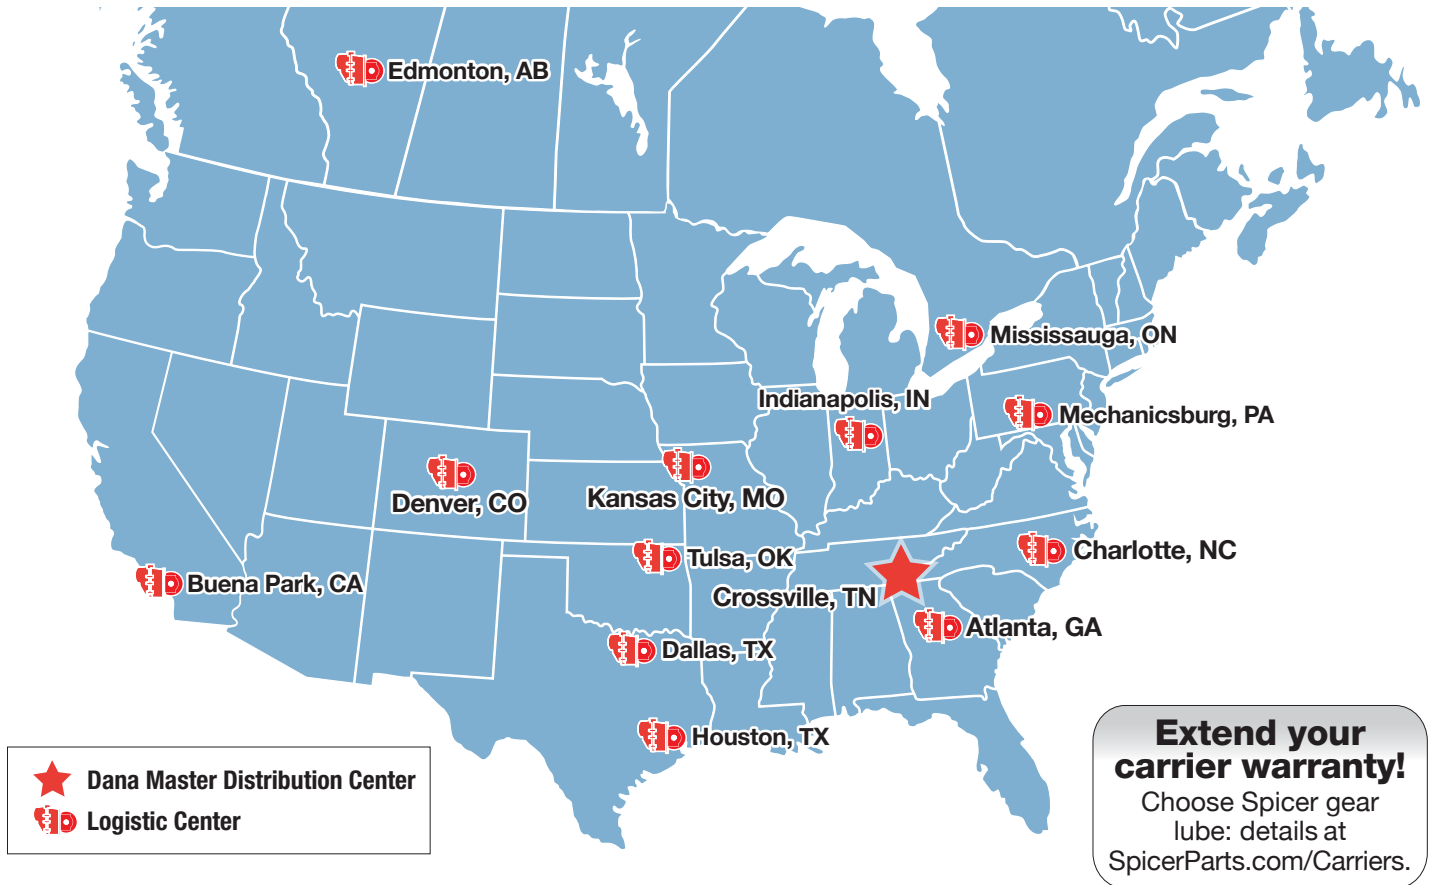

Our new Spicer smart part number identification system now reflects actual location, model, ratio, and GAWR, making ordering your medium- and heavy-duty carriers easier than ever. See the examples below.

Shown above are EXAMPLES only. For complete details and options, please refer to the New Smart Part Number Nomenclature chart, publication number HAXL-Part#-12015.

Distribution Network

Dana's master distribution center, located in Crossville, Tennessee, can ship product, including carriers, quickly throughout North America. And as demand for Dana aftermarket products has increased, we have continuously improved our distribution networks to ensure customer satisfaction. Check out the map below to see how our facilities are well-positioned to deliver your medium- or heavy-duty carrier without delay. The logistic centers shown on the map below are for carriers only.

Truck down? Need a new carrier? Spicer carriers can be picked up or received the same day!*

Check our in-stock availability immediately at DanaAftermarket.com.

Our customer service team works to ensure that you can receive or pick up your parts as soon as possible, so you can keep your vehicles on the road. We can now accept orders 24/7 on DanaAftermarket.com, or order via phone 8 a.m. to 5 p.m. ET: 1.877.777.5360 (OE dealers) or 1.800.621.8084 (warehouse distributors).

* Ask our customer service department about our Will-Call Pickup. Depending on your location and your carrier, you may be able to receive or pick up your carrier the same day you place your order!
