

SPICER®

Introducing Dana's New *North American Aftermarket E-Commerce Platform*

It's Never Been Easier to do Business with Dana.

You've spoken. We've listened. Easily access the genuine Spicer® brand and SVL® brand parts information you need to succeed, at DanaAftermarket.com. Search by part number, year-make-model, product type, product line, and keywords. Also, check availability, locate distributors or dealers, and place and track your orders. It's all here to help streamline your operations and grow your business. Experience the new one-stop solution from Dana today!

Introducing Dana's New NA Aftermarket E-Commerce Platform

It's Never Been Easier to Do Business with Dana.

Access everything you need to help increase day-to-day efficiency, best serve your customers and continue to grow your business with genuine Spicer brand and SVL brand parts.

Search and Identify Parts

Easily identify and search for parts and related component information. Search by vehicle year-make-model, type, or through a highly intuitive and browser-like search bar. Use the interchange functionality to interchange OE and competitive part numbers to the Spicer part number.

Check Availability/Locate/Send RFQ

Get real time visibility to Dana parts inventory, location, and estimated ship dates. The *Where to Buy* functionality provides end-users the ability to find dealers and distributors in their area. End-users can also send a request for a quote to their local distributor or dealer.

Order Processing and History (Secure Portal)

Direct Dana customers can quickly and securely place stock and emergency orders online. Get account-specific pricing, order history, and generate quick reference order/reorder lists. Plus, view, download, and share all the standard associated documentation you need.

Track Shipping Status (Secure Portal)

Direct Dana customers get up-to-date information on order status and shipping.

Exclusive RFQ Pipeline Access (Secure Portal)

Through this new e-commerce platform, direct Dana customers can now receive a request-for-quote from current and potential new end-user customers.
