ReadyPack™

The Dana Aftermarket Group is delighted to announce our new Spicer ReadyPack™ driveshaft kits! Featuring 100% Genuine Spicer components for our most popular HD commercial vehicle driveshafts, coupling shafts and interaxle shafts, Spicer ReadyPack™ kits offer convenience and extra value by saving on inventory, labor, and costs.

Spicer ReadyPack™ kits are specially created to contain the exact hard parts you need to build our most popular Spicer shafts, and may include:

- Tight Joint (**u-joint* preinstalled in the tube yoke – saves time!**)
- Slip Joint (**u-joint* preinstalled in the yoke shaft or slip yoke assembly – saves time!**)
- Splined Sleeve Assembly
- Boot Kit
- Tube Shaft
- Center Bearing
- End Yoke
- Washer
- Nut

Easy Nomenclature! If you know the base part number of the shaft you are rebuilding, you can easily identify which Spicer ReadyPack™ kit is right for you:

- All **Spicer ReadyPack™** kits begin with **DB**
- Next set of 3-4 numbers are the **series** (250=SPL250, 170=SPL170, 1810=1810, etc)
- Next letter identifies **type** of shaft (D=Driveshaft, C=Coupling Shaft, I=Interaxle Shaft)
- Last set of numbers are the shaft **base number** (for 10 series) or the last 6 digits of the **base number** (for SPL series)
