

THE  
**ULTIMATE**

## This Ranger Doesn't Follow the Rules.

This 2017 Ford® Ranger®, affectionately named "Randi" by all the people who donated to and worked on the rig, was meant from the start to stand apart from the crowd. Those working on the build knew they had to begin with the best from the ground up, so they went straight for a pair of Ultimate Dana 60™ axles with lockers. Ultimate Dana 60s™ deliver optimal performance and maximum strength for lifted vehicles with larger tires. Like Ford, Dana is proud of our long heritage of building to the highest standards of toughness and durability.
