

THE
ULTIMATE

Living The Spicer Life with Dana Axles!

If you attend a Jeep® event, chances are you'll see the Spicer® brand there, too. That's because being with the fans who live and breathe Jeep inspires our team to keep innovating. We see what you demand of your Jeeps and how you modify them—then we take it all back to our engineering tech center, so we can help you get even more out of your Jeep.

That's the guiding principle behind our proving session in the Moab Desert, where we validated the Ultimate Dana 60® kingpin front axle and Ultimate Dana 80™ rear axle assembly during the Easter Jeep Safari. We conceptualized these hard-hitting, Ultimate axles as potential aftermarket solutions for off-road enthusiasts who crave tires larger than 40 inches, or V8 engine swaps. And the results did not disappoint!
