

**NEW! Spicer Life Series® Plus U-Joints**

Date: **June 2021**

To: **All Dana Aftermarket Group Spicer® Driveshaft Customers**

Spicer, the leader in u-joint quality for over 100 years, now offers an advancement in universal joints: SPL® Plus u-joints. Building on the superior design, lubrication, and sealing package of Spicer Life Series® (SPL®) u-joints, SPL® Plus u-joints feature upgraded grease, seal, seal guard, and spacer material for premium performance in the most demanding environments.

**Extended U-Joint Life**

- Journal cross engineered with a cold-formed body to ensure better wear and overall strength

**Bearing Cups**

- Heat-treated for strength
- Precision-ground and case-hardened for durability

**Enhanced with Synthetic Grease**

- The red Spicer Life Series ultra-premium grease of SPL u-joints is replaced with upgraded green synthetic grease
- Significantly improves minimum and maximum temperature capabilities
- Increased bearing life

**Enhanced Spacer Material**

**Multi-Lip Seal**

- Keeps grease in and contaminants out
- Offers maximum retention in a wider range of environments
- Enhanced seal and seal guard material

**Thrust Washer**

- Eliminates friction and end galling
- Eliminates metal-to-metal contact
