

INTERMEDIATE AXLE SHAFT FOR MODEL 44 8FD

AXL-TEC-11
TECHNICAL

DATE: July 14, 1993

TO: All Spicer[®] Axle Distributors

This bulletin represents from 5730 in describing proper replacement of the Intermediate Axle Shaft. This form will be included in kit 75265X (which replaces 41318). This kit includes an output shaft (45770), a synthetic bushing (43337), and an instruction sheet (form 5730).

When replacing the Intermediate Axle Shaft, the needle bearing "B" should be replaced with synthetic bushing, 43337, contained in the above-mentioned kit, 75265X.

If additional copies are needed, please contact your District Sales Manager.
