

## **NEW!** Spicer Commercial Vehicle 33-Inch Driveshaft 3-Pack Tubing Bundle

Date: **September 2021**

To: **All Dana Aftermarket Group Spicer<sup>®</sup> Driveshaft Customers**

The Dana Aftermarket Group is pleased to announce our new Spicer 33-inch driveshaft tubing 3-packs for commercial vehicle driveshaft rebuilds. Finished 33-inch Spicer tubes complement a driveshaft rebuild when using Spicer u-joints, center bearings, yokes, and hardware, and they provide a complete driveshaft rebuild when paired with Spicer ReadyPack™ preassembled kits. With over 900 SPL<sup>®</sup> shafts requiring tubes that are 33 inches or less, Spicer delivers the tubing lengths you need and the quality you demand.

### **Benefits of Spicer 33-Inch Driveshaft Tubing 3-Packs:**

- Save money: get 99" of tubing for 25% less than the price of 100" tubes
- Get the size you need: our range of options accommodates many popular inter-axle and coupling shafts
- Improved packaging
  - Square tube package for better stacking and storing vs. a cylinder
  - Enhanced product protection
- Convenient and easy to handle
- Less freight loss: smaller packages offer greater potential for secured shipping when organized onto pallets and/or shrink-wrapped
- Provides a complete driveshaft rebuild when paired with Spicer ReadyPack™ preassembled kits

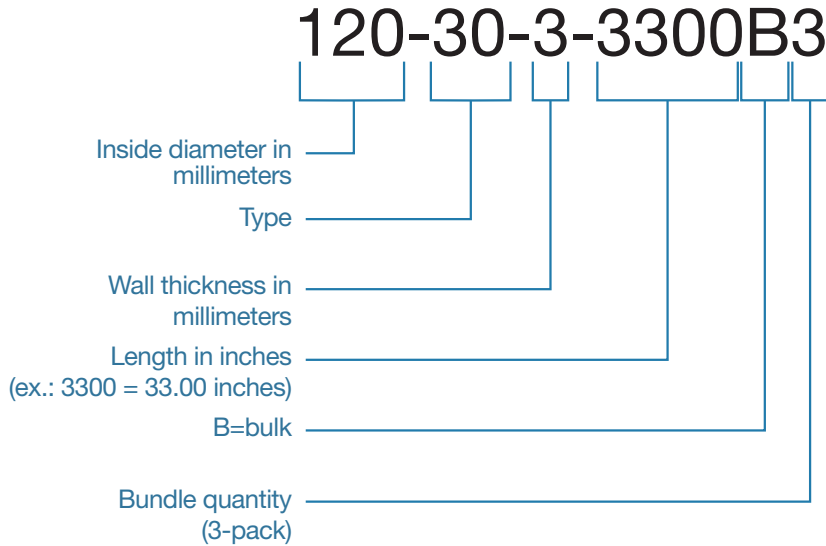

### **Driveshaft Tubing: Spicer 33-Inch 3-Packs**
