SPICER® CHROMOLY AXLE SHAFTS

www.SpicerParts.com

Engineered for optimum strength off-road. These genuine Spicer high-performance axle shafts are optimized for use with larger tires, and they are manufactured using only SAE-4340 nickel chromoly steel. Get optimal strength and durability, plus the Dana-backed innovation that is built into every Spicer axle shaft. Learn more about the benefits of SAE-4340 nickel chromoly steel axle shafts, and talk to your Spicer parts representative today.

SPICER® NICKEL CHROMOLY STEEL AXLE SHAFTS

Not all chromoly shafts are alike. At Dana, we've engineered the SAE-4340 nickel chromoly axle shaft to exceed OE standards and meet the exacting demands of off-road. Hit the trail with the confidence that comes from knowing you are backed by the global leaders in driveline products. Engineered to deliver added strength and durability, these genuine Spicer axle shafts are one more example of the innovations that we bring to performance applications.

See the features and benefits of our high-performance axle shafts, including:

SAE-4340 nickel chromoly steel construction

- For ideal hardness throughout the part
 - Nickel provides additional toughness
 - Chromium ensures high-temperature strength and resistance to abrasion
 - Molybdenum helps maintain a specified hardenability

Optimized for high-performance strength and durability

- Designed to withstand off-road punishment

Heat treatment processes

- Delivering the same surface hardness and case hardness, while achieving a higher core hardness for greater strength
- Ensuring optimal hardness inside and out

Find out more about Spicer axle shafts, as well as a range of products engineered for performance applications. Visit www.DanaUnleashed.com or talk to your Spicer parts representative today.
